SMALL FIRE IN
FRANKLIN ST. BLOCK.

Matthew was burning in Tenement
Occupied by Alexander McGregor.

About 5:30 Friday afternoon there
was a telephone call to fire department
headquarters for a fire in the tenement
at 18 Franklin street, occupied by
Alexander McGregor. No one was in-
jured. Engine company No. 1 answered
the call and finding a mattress on
fire, two tanks of chemical put it out.
It is supposed it may have been caused
from sparks from a pipe.

Mrs. McGregor was in her kitchen
getting supper when the fire was dis-
covered and was at a loss to explain
how it occurred. The bed was five
feet from the stove. The firemen threw
gallons of chemical over the bed and
carpet being somewhat damaged. Mrs.
McGregor said that everything was all
right in the room when she left it. The
building belongs to Charles McNamara,
but the damage will not be large, being
chiefly from smoke.

PUMPS STOPPED AT
TRADING COVE BROOK

After Having Been in Continual Op-
eration Since May 3 of This Year.

Friday noon the pumps at the Trad-
ing Cove pumping station were stop-
ped, and the water in the cove was
the winter, it is expected. The pumps
have been in continual operation there
since May 3 of this year, having been
changed over to the city from the
Trading Cove brook at the rate of
about a million gallons a day.

It is thought that in view of the ex-
tense of the day for operating the
plant and the improvement shown in
Fairview, that the latter will be able
to take care of the consumption from
now on, or until it is possible to send
the Stoney brook water into the mains
which the department hopes to do the
first of the month. The sewer line
pipe line is completed. From the lat-
ter it is expected that the city can
secure all the water it needs, and will
permit Fairview to fill this winter.

END REACHED FOR
THE NEW SPILING

Some Repair Work to Be Done to Desk
Above Railroad Bridge.

After several weeks' work the spil-
ing in Tantic cove has been completed,
there being about 800 spiles driven
there on both sides of the dump for
the retention of the material placed
there. The work of repairing the
wharf at a point above the railroad
bridge is yet to be done, it being plan-
ned to put in a pier to hold the wharf
in place, which is giving way.

The new spiling will provide pro-
tection for the wharf for the winter
which will be dumped there for a
year or more. At the present time
the fill is much shallower than it was
a few years ago, being but five feet
now, as the flats in the cove are be-
ing reached.

any instruments or measures kept or
used in the county by any proprietor
or employee in proving the size, quan-
tity, extent, area or measurement of
quantities offered for sale, hire or re-
ward. He shall also have the power

Prescription that Soon
Knocks Rheumatism

The only logical treatment for Rheu-
matism is through the blood. The poi-
son that settles in muscles, joints and
bones, causing severe pain, must be dis-
solved and expelled from the system, or
there will be no permanent relief. Pre-
scription from a noted doctor is said to
have cured all cases of rheumatism in
hundreds of the worst cases were cured
by it here last winter. From your
druggist get one course of Toris com-
pound (in original sealed package) and
one ounce of pure Toris compound. Take
these two ingredients and mix them into a
good whiskey. Shake the bottle and
take a tablespoonful before each meal
and at bedtime. Results come the
first day. If your druggist does not
have Toris compound in stock he will
get it in a few hours from the wholesale
house. Don't be influenced to take
some patent medicine instead of this.
Insist on having the genuine Toris
compound in the original, one ounce,
sealed yellow package.
